PROFESSIONAL SUMMARY

Cybersecurity and networking student with hands-on experience in network administration, intrusion detection, firewall configuration, and incident response. Proven leadership as Cybercrime and Security Awareness Club President. Seeking opportunities in Network Administration, IDS/IPS Operations, Incident Response, Security Analysis, or System Administration.

EDUCATION

BSc. (Hons) Computer Science (Cybersecurity) 2027 (expected) *Forbes College, Bharatpur, Nepal*

Higher Secondary Education (+2) – Computer Science Completed 2023 *Narayani Model Secondary School, NEB* | GPA: 3.01

Secondary Education Examination (SEE) Completed 2020 *Small Heaven Model School, NEB* | GPA: 3.75

TECHNICAL SKILLS

Network Administration: Routing, Switching, VLANs, Subnetting, TCP/IP, DHCP, DNS, OSPF, RIP, Port Security, Wireless AP Configuration, EtherChannel

IPS/IDS & Firewalls: Sophos Firewall, FortiGate, Intrusion Detection/Prevention fundamentals, Network Traffic Analysis

Incident Response & SIEM: Incident Response Reporting, Log Monitoring, SIEM Fundamentals, Vulnerability Assessment (OpenVAS, Nessus)

Security Tools: Wireshark, Nmap, Kali Linux, Metasploit, Packet Sniffing, Ethical Hacking (CEH v12 labs)

System Administration: Linux (Kali, Ubuntu), Windows (Server/Host OS), VM Lab Setup, Bash/PowerShell, Remote Access (SSH/RDP), User/Group Management, Active Directory (AD)

CERTIFICATIONS

CCNA (Module 1 & 2 Completed) – Cisco Networking Academy (NetAcad)

Ruijie Certified Network Associate – Ruijie networks

Fortinet Certified Fundamentals in Cybersecurity – Fortinet Training Institute

Ethical Hacker – Cisco Networking Academy (NetAcad)

Certified Ransomware Protection Officer (CRPO) – EU Cyber Academy

ISO/IEC 27001:2022 Lead Auditor – Mastermind

Python Practical – Programiz.pro

LEADERSHIP & ACTIVITIES

President – Cybercrime & Security Awareness (CCSA) Club – Forbes College 2024 – Present

- Led 5+ cybersecurity awareness campaigns, workshops and events.
- Managed team operations, delegated roles, and coordinated between teams and institution.
- Developed the club's constitution and full-stack website for notice flow and club identity.

NCC Program Participant – Nepal Army

- Developed discipline, leadership, and structured team management under national military training framework.

EXPERIENCE & PROJECTS

Trainer (Networking and Cybersecurity)-Present

Training High School graduate at one-month intensive ethical hacking workshop in Forbes college.

Network Lab – CCNA Hands-on (Cisco IOS, Packet Tracer)

Configured Routing, switching and device hardening activities on physical Cisco routers and switches.

Designed and validated enterprise network topologies; performed troubleshooting and connectivity testing.

Firewall Lab – Sophos & FortiGate

Built a VM-based lab to configure and implement firewall rules, access control, and traffic filtering policies.

CEH v13 AI Ethical Hacking & Penetration Testing Labs

Conducted ethical hacking labs following the CEH v13 curriculum in isolated VM environments (VirtualBox/VMware), performing all five penetration testing phases including network reconnaissance (Nmap, OSINT), vulnerability scanning (OpenVAS/Nessus), packet analysis (Wireshark), and exploitation techniques using Kali Linux, while gaining exposure to AI-augmented threat detection concepts introduced in CEH v13.

ACHIEVEMENTS

- 1st Runner Up – UTEC Hackathon Beta
- Participated at Code for Change Hackathon Provincial level
- Active CTF participant
